# **Overview**

#### Market Outlook

- 2022 is off to a slower start relative to a very busy 2021 year-end. However, the sponsored middle market direct lending volume was \$22.5 billion in Q1 2022, which is an increase of 15% quarter-over-quarter compared to \$19.5 billion during Q1 2021.
- While much of the activity within the first quarter was attributable to add-on acquisitions, new deal activity continues to pick up as pipelines are building
- Continued focus on the impact of inflation, labor shortages, supply chain issues and rising rates in existing portfolios and new deals

#### Churchill Platform

- Churchill platform entered 2022 with momentum, despite the backdrop of broader economic uncertainty related to the Ukraine war, rising interest rates and inflation

     LTM annual investment pace reached a record-breaking \$11.6 billion
  - Senior lending platform more than doubled originations from Q1 2021
- As an LP that commits more than \$1 billion per year to middle market private equity funds and an
  incumbent lender to nearly 200 middle market companies, Churchill is well-positioned to capture attractive
  deal flow while remaining highly selective

#### NCDLC Portfolio Update

- Highly diversified across 22 industries with an average investment size of less than 1% of total committed capital (shareholder capital plus committed financing)
- · Limited exposure to cyclical industries such as retail, restaurants, energy, travel and leisure
